

## Support at Field Days

# Agent Update *Agent Update*

At SWEP we have always wanted to improve our field presence, but found it hard to get to events like Field Days on a consistent basis. However, one solution would be to provide support for Agents who have sites at such events.

If you are planning to set up a stand at a Field Day or other such event, please let us know, as your input in developing our support facilities would be greatly appreciated.

Please note that in order to ensure we can get things organised in time, we would ideally prefer about three weeks notice of any event you plan to participate in.

At present the kinds of things we are looking at include:

- Signs, banners and posters.
- A DVD to play at your site.
- The SWEP website on CD for people to browse at your site
- The usual selection of literature, etc.

Please let me know if you have any other suggestions.

**Notice:**

*This is an old Update and things may have changed. Please contact us if you are going to a Field Day or other event to see what support is currently available.*
